- There are 99 courses in the schedule. (Compared to 101 in 2020)
- Commercially sensitive information
- The courses highlighted in orange need to go through PAC and Governance Group approval. These courses are included in the calendar and TEC Mix of Provision schedule to facilitate funding these courses upon approval during this year.
- The courses highlighted in blue are courses requested by Police.

### Next Steps:

Mix of Provision approval from TEC.

Contract to be signed by TPP and Ministry of Transport

2021 SAR training programme to commence.

Discussion was held around LandSAR funding SAR training courses from other sources as this budget does not meet the LandSAR training demand.
